officials
Common platform for apps
(Vahan+Digilocker+Rto vehicle info)
Unauthorized/Fake
/Third party docs
Step
Corruption
Otp verification
Log/History/database for all challans
Stolen Vehcile Recovery

Future Scope

Anti theft

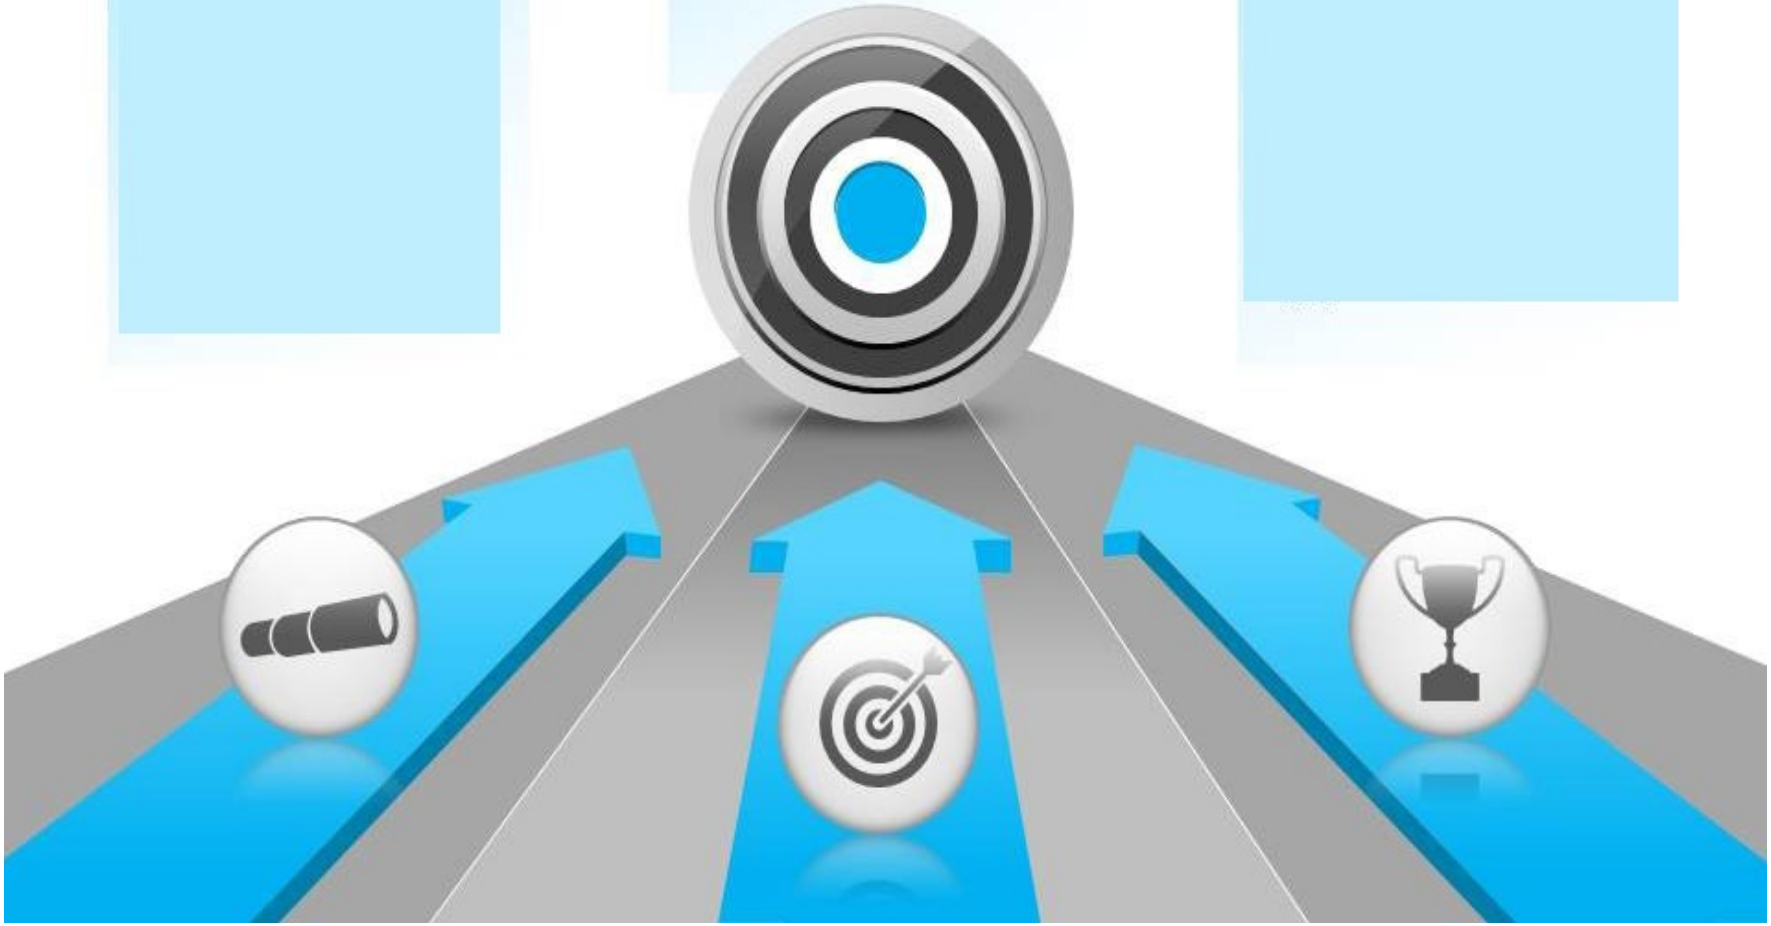
on registring FIR Official can block the QR code of user and if found any-where that vehicle will be recogonized

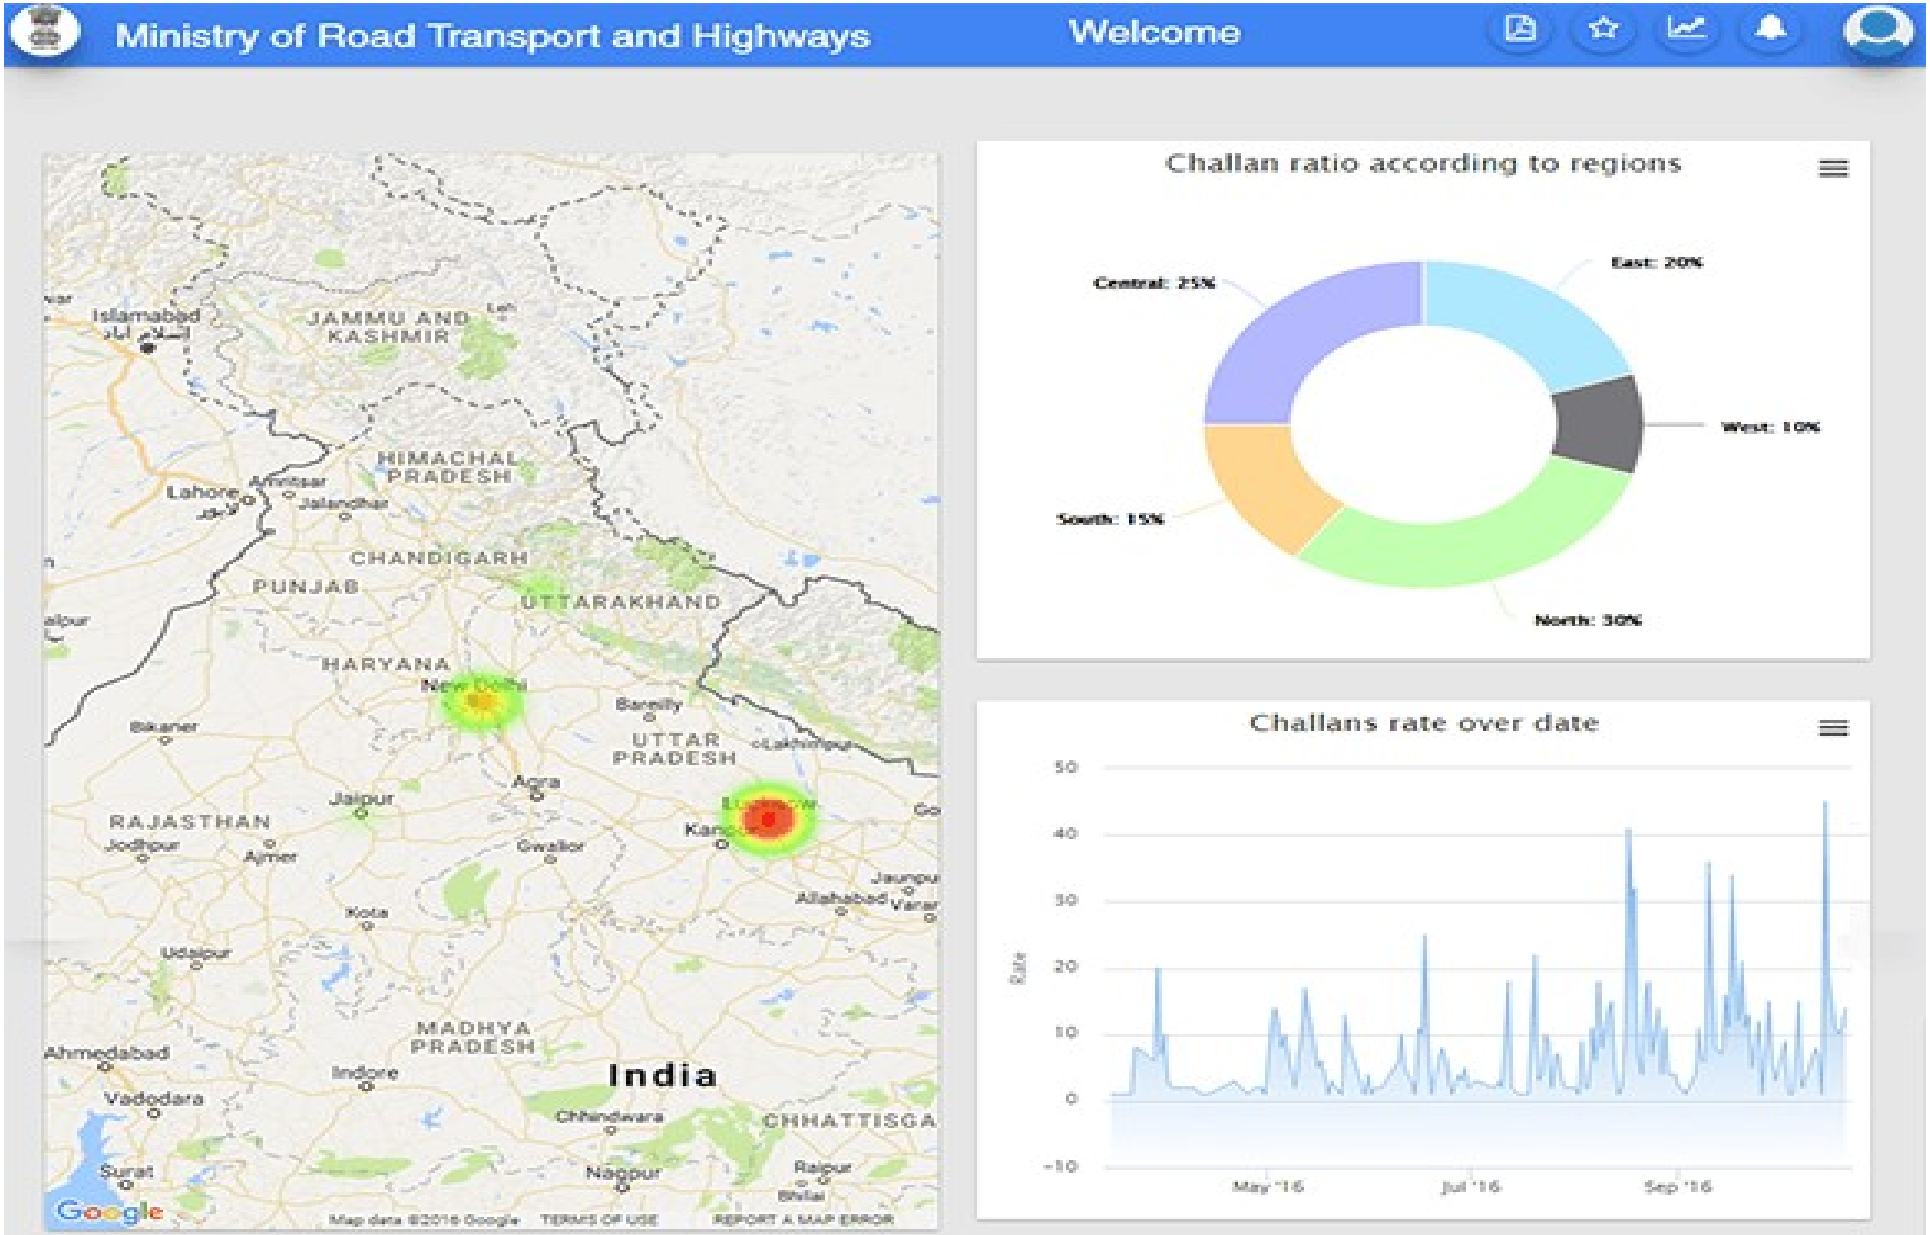
Tracking

Long route vehicles can be tracked with qr code on toll booths

Alert Mechanism

notifications wil be sent to the users whenever a pollu-tion ,insurance is expired





Challan ratio: No. of challans for which payment is made to government /Total no. of challans

The Revenue Generation Model

All Money to Govern-ment Accounts

- Proper Database is made
- Instatnt challan is recorded once done which cant be alterd
- as this app reduces bribism so no corrupt official can make money

Paid Services

- in case a user needs more storage for storing data he has to pay some charges. i.e. some services can be made paid

ADS/SPonsorships

- Due to security issues revenues maybe less beacuse we cant just upload an ad on any page but revenue can be generated upto some instant.
